ACTION

| 1. sample                                   |                                                                                                                                                                              |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>AOA</b> – potential for CMTs.            | Low, moderate, moderate to high and high.                                                                                                                                    |
| <b>AOA</b> – potential for other resources. | Areas of moderate to high and high.                                                                                                                                          |
| <b>LARP</b> – known resources.              | Traditional trails throughout area. Resource documented within area:<br><b>190</b><br><b>2034</b><br>There are no resources documented close to area.                        |
| <b>First Nations</b>                        | Skin Tyee Band, Office of the Wet'suwet'en, Wet'suwet'en First Nation, Cheslatta Carrier Nation, Stellat'en First Nation, Nadleh Whut'en Band                                |
| <b>Recommendation</b>                       | No reconnaissance or AIA required.<br><input checked="" type="checkbox"/> Reconnaissance required. After reconnaissance is complete, fill in section below.<br>AIA required. |
| <b>Notes:</b>                               |                                                                                                                                                                              |

RECONNAISSANCE REPORT and AIA REQUIREMENT

| 1. sample                                               |                                                                                                                                                                             |
|---------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Date:</b>                                            | September 05, 2001                                                                                                                                                          |
| <b>Reconnaissance completed by:</b>                     | John Doe                                                                                                                                                                    |
| <b>Describe field work completed:</b>                   | Completed field transects throughout area, map of transect lines attached.                                                                                                  |
| <b>Describe cultural heritage resources identified:</b> | Found pre- and post-1846 CMTs. There were cache pits and numerous traditional trails. I identified, flagged and GPS'd all resources.                                        |
| <b>Report attached:</b>                                 | <input checked="" type="checkbox"/> Yes      No                                                                                                                             |
| <b>Map attached:</b>                                    | <input checked="" type="checkbox"/> Yes      No                                                                                                                             |
| <b>Archaeological Impact Assessment required:</b>       | <input checked="" type="checkbox"/> Yes      No                                                                                                                             |
| <b>Rationale:</b>                                       | An AIA is required to determine the significance of the site, to prepare a professional report, and to register this site with Archaeology Branch. No harvest in this area. |
