LAKES FOREST DISTRICT – CULTURAL HERITAGE RESOURCES

STANDARDS for AIA RECOMMENDATION

NO BARK BEETLE INFESTATION

ACTION	RECCE INFORMATION	CHR INFORMATION	CHR RATING	NOTES
No further action.	No CMTs or other CHRs are identified.	**AOA** – potential for CMTs. **AOA** – potential for other resources. **LARP** – known resources.	Any rating. Any rating. No significant resources documented.	• Harvest may occur.
No further action.	Post-1846 CMTs are the only CHRs identified.	**AOA** – potential for CMTs. **AOA** – potential for other resources. **LARP** – known resources.	Any rating. Any rating. No significant resources documented.	• Level 1 CMT Recording forms. • CMTs recorded should be representative of the harvest area. • If CMTs occur singly, 10% of the CMTs must be recorded, with a minimum of 10 records. If less than 10 CMTs exists, all should be recorded. • If CMTs occur in groups, 10% of the CMTs should be recorded for each group, with a minimum of 1 per group and 10 per harvest area. • If there are unusual CMTs, photographs must be taken and the district must be notified before harvest. • Harvest may occur after information is obtained.
No further action.	Pre- and post-1846 CMTs are identified.	**AOA** – potential for CMTs. **AOA** – potential for other resources. **LARP** – known resources.	Any rating. Any rating. No significant resources documented.	• **If** the pre-1846 CMTs can be isolated and reserved from harvest **and** harvest will occur on frozen ground and/or snowpack, harvest may occur after recording forms are complete for post-1846 CMTs.

AIA required.	Pre- and post-1846 CMTs are identified.	**AOA** – potential for CMTs. **AOA** – potential for other resources. **LARP** – known resources.	Any rating. Any rating. Any significant resources documented.	• If the pre- and post-1846 CMTs are distributed throughout the harvest area, an archaeological impact assessment must be completed. No harvest will be permitted until notice is given to the licensee by the district manager.
AIA required.	Other CHRs are identified.	**AOA** – potential for CMTs. **AOA** – potential for other resources. **LARP** – known resources.	Any rating. Any rating. Any significant resources documented.	• An archaeological impact assessment must be completed. No harvest will be permitted until notice is given to the licensee by the district manager.

Additional Information

- ❖ Pre-1846 cultural heritage resources are protected by the Heritage Conservation Act. These resources cannot be destroyed or altered without a permit issued by Archaeology Branch.
- ❖ CMTs should not be increment bored. Bore adjacent trees of similar species and diameter to determine the age of the tree. If the adjacent trees determine that the CMTs are post-1846, the CMTs may be increment bored.
