Dear Tim Smith:

Your exemption request under Section 4 of the Bark Beetle Regulation is hereby approved.

The conditions outlined in your request form an integral part of the approval. At this time, I am not requiring any specific notification or referrals, however, I recommend for areas where you are aware of other stakeholders that may be affected, a reasonable effort be made to contact them prior to harvesting.

The exemption is in effect until April 30, 2003.

Yours truly,

Bill Warner, R.P.F.
