Hi Scot

We have been monitoring the Chelasie River Bridge Campsite Abutment as per your email request dated August 19,2004 but we haven't sent them on to you as there has been no major changes in the recordings. However, to get back on track find below the recordings that we have been taking. For the winter the bridge will not be in use so we do not plan on taking any measurements through the winter. Come spring we will taking the recordings and then pass them on to you.

Date of Recording :Upstream Recording :Down Stream Recording
