Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources and may not be verified before being released for public sights to the public map. Wildfire data may not reflect the current fire situation, and therefore should only be used for general planning purposes.

Wildfire data from this location is updated when practicable and the occurrence of individual fire updates may vary. Wildfire perimeters are for fire location and extension only and should not be relied on as accurate because fires are dynamic and circumstances may change rapidly. The size of the wildfire activity within the mapped fire perimeters can vary widely.
