This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a regular basis, however it may not accurately reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may lag. The data is provided for internal use and planning purposes only, and should not be relied on as accurate for any other purpose. The spread of wildfires may change quickly, and the location of any fire(s) within the mapped fire perimeters can vary widely.
