Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis and is subject to change as more data on current fire situation, and therefore should only be used for general reference.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only and may not be accurate because fires are dynamic and circumstances may change quickly. The levels of current fire activity within any report for a business use may widely.
