Disclaimer:
Incident perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. Perimeters may not reflect the extent of current fire situation, and therefore should only be used for reference purposes.

Note: Status of the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only. Fire activity is unpredictable because fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
