Disclaimer:
Rehab treatments for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is intended for planning the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received from the ground and from aerial maps. The information is intended for general purposes only, and should not be used as an accurate measurement. Fire boundaries and hectares are subject to change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
