Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources and are subject to change. Perimeters are updated nightly to the public map. Wildfire data may not reflect all wildfires in the province, therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only. Fire sizes and fire perimeters are fluid because fires are dynamic and circumstances may change quickly. The levels of control the activity within the mapped fire perimeters can vary widely.
