This map may contain CONFIDENTIAL information: for INTERNAL use only

**Disclaimer:**
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. Perimeters are the best data available for the current fire situation, and therefore should only be used for general reference.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates will vary. The information is intended for general reference purposes only. Please note that the situation and because fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
