This map may contain CONFIDENTIAL information; for INTERNAL use only

Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are acquired from various sources. The data is refreshed from operational systems on a regular basis. This map is intended for general use, for current fire situation, and therefore should only be used for reference purposes.

Please note that the content is updated when practicable and the currencies of individual fire updates will vary. The information is intended for general reference purposes only and is not to be used for navigation because fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
