Disclaimer:
Wildfire perimeters for the current fire season, including the most recent perimeter, are subject to change and may be inaccurate. The data is extracted from operational systems nightly to the public map. Wildfire data may not reflect the most current information and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received and perimeter accuracy and timing will vary. The information is intended for general purposes only and should not be relied on as accurate for any specific use. Fire behaviour and perimeters can change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
