This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Wildfire parameters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is accurate as known for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when perimeters are received and verified but not updated in real time. It is not complete or intended for general public use. Please consult the BC Wildfire Service website (www.bcwildfire.ca) for the most up-to-date information. This was produced as a snapshot in time and will change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
