This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Boundary parameters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a daily basis. The information is a snapshot of data for the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire updates may lag. This map is provided for planning and general purposes only, and should not be relied on as accurate for navigation. The fire boundary perimeter is only a rough guide. Situations can change rapidly, and the current fire activity within the mapped fire perimeters can vary widely.
