Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources and may be subject to change and correction. Data is fluid to the public map. Wildfire data may not reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when information is received from various sources, and therefore will vary. The information is intended for general purposes only and should not be relied on as accurate or complete. The data may contain errors and may change quickly. The levels of current fire activity within a specific area may have even more variability.
