This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Fire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems on a frequent basis to provide the most accurate view of current fire situation, and therefore should only be used for reference purposes.

Wildfire data, from the incident is updated when perimeters are received. The most current and up to date information on the occurrence of individual fire updates can be found in the publicly available BCWS Wildfire Map. Information may not depend on the current size, change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely.
