

Access: Km 10.5 on the South Puggins road.

Operability – Flat terrain.

Resource Management Concerns – Portion of polygon was harvested for industrial purposes (borrow pit). Moose and deer tracks noted throughout the polygon.

Vigour of Beetle population – No live or dead attack noted within the polygon.

Other Factors – 50 % of the spruce trees are less than 30 cm dbh. Some patches of blowdown present. Scattered groups of pine, patchy to continuous sub-alpine fir.
