

Prince George Natural Resource District

Notice of Commencement (NoC)

The NoC form is required as per the harvesting authority document. The NoC is to be submitted to the District Manager (or the approved representative) before beginning timber harvesting or road construction. It is also required before re-starting timber harvesting or road construction after an inactive period of 3 months or more. Submission is in the form of an email with an attached map. Please enter the Licence, CP, RP and all Cut Blocks in the subject line and send e-mail to: Forests.PrinceGeorgeDistrictOffice@gov.bc.ca

Licence Number:	Name of Holder:
Phone:	e-Mail:
Contractor Name:	
<u>Harvest Information</u>	
Timber Mark:	Cut Block ID:
☐ This is a new cutblock for which harvest start-up date has not previously been reported in an NoC ☐ This is an existing cutblock for which a harvest start-up date has previously been reported in an NoC (Do not add new block entry to FTA)	
<u>Road Information</u>	
Road Permit Number:	Road Section ID:
Start-up Date: Enter the date when the activity will begin. The date that felling will begin in the cutblock will also be the date that the silviculture obligation begins	Re-start Date: Enter the date when the activity will begin again after an inactive period of 3 months or more
Site Location: Describe the location of the cutblock or road construction	
Ministry of Forest Lands, Natural Operations and Rural Development Staff Only: ☐ Confirm that Cut block matches client records via email to client ☐ For CFA: Add new block entry to FTA. In FTA locate CP and select Add New. Enter: Cutblock number, Gross Area (0.6), Net Area (0.6), Start Date (today's date) and save. After new block saved, Change Status to HB and save again ☐ For expired One CP enter in logged area as 0 and change status to LC ☐ For Woodlot One CP same as above except area is 0.9ha for both gross and net ☐ For TSL's, TRIM and forward email to C&E Supervisor ☐ TRIM this notice and forward email to C&E Supervisor	

It is **strongly recommended** that a copy of the pre-harvest map be provided along with written description of travel directions. (Note: This map is provided to communicate general location of harvest, and is not intended to show exact block boundaries.)
