QUESNEL FOREST DISTRICT

Dear Colleagues

The Cariboo Mid-Coast Inter-Agency Management Committee (IAMC) has reviewed the attached *Recommended Interim Management Guidelines for Mule Deer Winter Range* dated November 14, 2000. It is our view that the guidelines are consistent with both the CCLUP and the Integration Report and therefore, offer them to the statutory decision makers as our best advice on meeting mule deer and timber targets over the short term.

If you have any questions regarding implementation of the guidelines, please contact Darcy Peel, Chair of the Mule Deer Strategy Committee, at 250-398-4716.

Yours truly,

Herb Langin
IAMC Chair
