

This is a detailed topographic map of the Sierra Nevada region in California. The map shows the Sierra Nevada mountain range, the Great Valley, and the Sierra Nevada National Monument. Key features include:

- Mountains and Peaks:** Labeled peaks include Mt. Eliza, Mt. Sir Francis Drake, Mt. Toiyah, and Granite Peak. The map also shows the Sierra Nevada National Monument and the Sierra Nevada National Forest.
- Rivers and Water Bodies:** The Sacramento River, Feather River, and Yuba River are shown. The map also includes the Feather River, the Yuba River, and the Feather River.
- Geographic Features:** The map shows the Sierra Nevada National Monument, the Sierra Nevada National Forest, and the Sierra Nevada National Monument.
- Map Elements:** A north arrow is located in the upper right corner. The map uses a color-coded system to represent elevation, with brown and tan shades indicating higher elevations and green shades indicating lower elevations.

This model represents the best available predictive habitat suitability and supply models for Northern Goshawk in coastal BC. The model was designed to be applied for strategic planning to predict generalized patterns of habitat supply and configurations at landscape scales. If the model outputs are used for operational management, such cutblock layout/evaluation, ground-verification is recommended.

Landscape Unit Boundary

Nesting Habitat Suitability Class

- Nil
- Low
- Medium
- High
