

Table 6. Assessment Worksheet for Invasive Plant Measures

Aspect			Yardstick	Does the measure include this aspect?*
Sample #				
FSP #				
Are there any indications in FSP or elsewhere regarding seriousness of invasives within FSP area?			<i>Insert comment here</i>	
Prevent introduction	Machinery brought in is clean	1	Wash machinery known to come from weedy areas	
	Seed for re-vegetation is free of weeds	2	Use seed free of weeds (Minimum <i>Common No. 1 Forage Mixture</i> NOT <i>ground cover mixture</i>)... OR provide rationale*	
	Potential seedbed is kept to a minimum	3	Minimize ground disturbance in areas prone to invasives	
	Seedbed is promptly re-vegetated	4	Timeline specified	
	Other – explain in comments	5		
			At least row 4 must be Yes and row 2 must be Partial or Yes . Must be ≤ 2 No 's in rows 1 to 5.	
Prevent spread	Assess risk	6		
	Detect weeds	7	Provide a process for detecting weeds	
	Report weeds	8	Process for reporting weeds	
	Eliminate infections	9		
	Monitor	10	Must have process for reviewing infection sites and checking re-vegetated sites	
	Other – explain in comments	11		
			Row 7 and 8 must be Yes, Must be at least 3 Yes'	
Other	Provision for reseeding if initial seeding does not take.	12		
		13		
		14		
			A Yes here can be applied in above to negate a No	
Overall	Are they likely to be effective?		Prevention of spread and introduction must be Yes	
	Are they practicable?			
	Are they measurable or verifiable?		Use the measurable verifiable worksheet if it is not obvious.	
	Meet approval tests? (reasonable and appropriate)		Above 3 questions must be "Yes"	

* "Yes", "No" or "Partial" in this column (except for sample # and FSP #)
