Subject: FW: ERP dates

John's response about the name of the Shovel Lake ERP being dated Sept 11, 2019 but the document indicating June 18, 2019 is below.

Apparently we just use this one in the meantime and he'll let us know if there is a newer version available.

Subject: ERP dates

Good catch on the date. I'm hoping they simply forgot to update the date on the cover page. Hard to tell without looking at the details but that is likely what has happened.
