This map may contain CONFIDENTIAL information. For INTERNAL use only

Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed as frequently as possible, however, the data may not always be up to date to reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable and the occurrence of individual fire update will vary. The information is intended for general purposes only and should not be relied on as current or accurate. Fire situations can change rapidly and can change rapidly. The levels of current fire activity within the mapped fire perimeters can vary widely.
