Introduction

This is the tenth annual report of compliance and enforcement activities conducted by the British Columbia Ministry of Forests and Range. This report contains information on compliance and enforcement of the *Forest Act*, the *Range Act*, the *Forest Practices Code of British Columbia Act* (the Code), the *Forest and Range Practices Act* (FRPA), the regulations associated with these acts, and other statutes enforced by the Ministry's Compliance & Enforcement program. The Code came into effect on June 15, 1995, and is currently being replaced by FRPA, which came into effect on January 31, 2004.

This report provides statistics of compliance and enforcement activities recorded by the Ministry of Forests and Range for the period of April 1, 2004 to March 31, 2005, and provides a follow-up to annual reports previously published.

The report covers compliance and enforcement activities with respect to forest and range practices carried out by major licensees, community forest licensees, timber sale licensees, woodlot licensees, range licensees and mining, petroleum and natural gas companies holding licences to cut.

Electronic copies of this report are available from the Ministry of Forests and Range, Compliance & Enforcement Branch, or by accessing the government Internet page:

www.for.gov.bc.ca/hen/index.htm

If there are discrepancies between the printed copy of the annual report and the copy on the website, the posted copy of the annual report on the website is considered correct.

Statistical Summary

Most of the statistics contained in this report were generated from two information systems managed by the Ministry of Forests and Range.

The **Enforcement Action, Administrative Review and Appeal Tracking System** (ERA) serves as the Ministry's record of enforcement activities. ERA documents cases that arise from alleged contraventions of the acts and regulations enforced by the Ministry, including the issuance of tickets, enforcement actions taken, and cases that are appealed.

The **Compliance Information Management System** (CIMS) serves as the Ministry's record of inspection activities and compliance actions.

Key Statistics

Key statistics from April 1, 2004 to March 31, 2005 are:

- 16,651 Inspections were completed
- 456 Enforcement Actions were taken
- 15 Stop Work Orders were issued
- 2,411 Compliance Actions were taken

Violation Tickets and Administrative Penalties

The number and total monetary value of penalties and violation tickets issued during the reporting period is:

Violation tickets issued	197
Monetary amount of tickets	\$37,059
Administrative penalties levied	123
Monetary amount of penalties ¹	\$363,886

¹ As a result of a November 2003 amendment to the Forest Act, stumpage is now payable on timber harvested without authority. Previously, the Crown was unable to collect stumpage on unauthorized harvests; instead, penalties issued included an amount equivalent to the stumpage as a means to compensate the Crown. The 2003 legislative change has the effect of reducing the total monetary amount of penalties.

Service Plan Report Statistics

The Ministry's Annual Service Plan Report includes statistics about Compliance & Enforcement Program activities and forest operators' compliance. The following information is from the 2004/05 Annual Service Plan Report, available at:

www.for.gov.bc.ca/mof/annualreports.htm

Percentage of forest operators' compliance with standards that regulate forest practices	91.4%
Per cent of high and very high priority sites inspected for forest and range practices compliance	81.6%
Per cent of high and very high pricing and revenue risk sites inspected for pricing and revenue compliance	84.4%
Per cent of alleged compliance contraventions successfully concluded	82%
Per cent of alleged enforcement contraventions successfully concluded	67%

Administrative Reviews

During the reporting period, there were three requests for administrative reviews of enforcement decisions made under forestry legislation. A total of 3 review decisions were released during the reporting period:

- 1 rescinded, overturning the original decision
- 2 varied, meaning that the review panel changed the original decision

For information on appeals filed with the Forest Appeals Commission, see: www.fac.gov.bc.ca

Prosecutions

Alleged offences under forestry legislation sometimes lead to provincial court cases. In the 2004/2005 fiscal year, the British Columbia Attorney General successfully prosecuted five cases, one of which resulted in an acquittal, one of which resulted in a conditional sentence order, and three of which resulted in fines.

Commonly Asked Questions

What are inspections?

Inspections are an examination of activities or practices, and are used to determine whether the forest and/or range practices are carried out in compliance with statutory requirements.

Inspections cover the obligations of both the licensees and the government.

What does a contravention mean?

A contravention is where an individual or company who has an obligation under the law has been determined or found to have acted in such a manner as to have violated the law.

The violation or infraction of the law is punishable by an enforcement action (such as a monetary penalty or fine) with the penalty, fine or imprisonment not exceeding a specified amount or time period.

What are compliance actions?

Compliance actions are used when an official has reasonable grounds to believe a contravention has occurred, or may be about to occur, but in situations where enforcement actions are not warranted.

Compliance actions include warning tickets and compliance notices.

What is a stop work order?

Stop Work Orders are used by an official to stop a forest and/or range practice that the official believes is in contravention.

COMMONLY ASKED QUESTIONS CONTINUED

What are enforcement actions?

Enforcement actions are used when an official determines that legislation requirements have been contravened and a formal sanction is warranted. Enforcement actions include violation tickets, monetary penalties, remediation orders, licence suspension, licence cancellation, timber sale disqualification and orders to vacate.

Parties subject to enforcement actions have an avenue to appeal the action.

What does it mean if a licensee is given a monetary penalty?

Monetary penalties are one of the administrative remedies available under forestry legislation.

The fact that a licensee has been assessed a monetary penalty means that a senior government official has determined that the licensee has failed to meet a statutory requirement, and that the defences available to licensees (due diligence, officially induced error and mistake of fact) do not apply.

Monetary penalties should not be confused with fines that can be imposed by a Court if a licensee is prosecuted and convicted for an offence.

When are prosecutions recommended?

Prosecutions may be recommended where there is evidence of a serious case of unauthorized harvest, theft, fraud, or other contravention. Prosecutions are recommended when it is in the public interest to prosecute, and when there is a reasonable chance of the prosecution resulting in a conviction.

The final decision as to whether or not to prosecute lies solely with Crown Counsel (the Ministry of Attorney General).

COMMONLY ASKED QUESTIONS CONTINUED

What is a violation ticket?

A violation ticket is a form of prosecution. Tickets carry set fines for specified offences, and once a ticket has been issued, no other form of prosecution for the offence for which the ticket was issued can occur. Due diligence and officially induced error are defences for violation tickets.

What are the unauthorized harvest statistics?

From April 1, 2004 to March 31, 2005, penalties for unauthorized harvesting ranged up to \$31,320, and totalled \$183,489.

During the same period, there were 55 Violation Tickets issued by the Ministry of Forests and Range for various incidents of unauthorized harvesting, with fines totalling \$9,515 ².

What is government non-compliance?

Government non-compliance means that the provincial government has not complied with a requirement of forestry legislation. For example, under the Timber Sales Program, Ministry staff have statutory obligations for planning and silviculture, similar to the obligations of major licensees. It is Ministry policy that incidents of significant government non-compliance are reported in this annual report.

Significant government non-compliance is any non-compliance that is not trivial or inconsequential in nature.

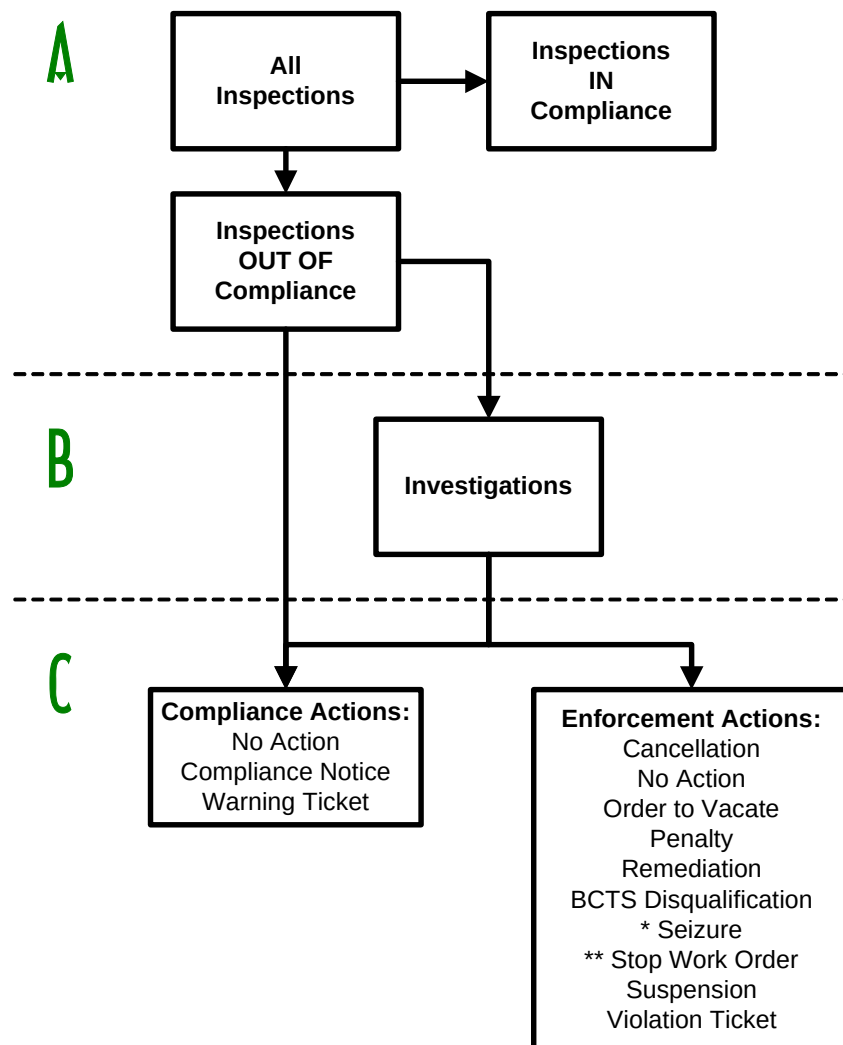

² As a result of a November 2003 amendment to the Forest Act, stumpage is now payable on timber harvested without authority. Previously, the Crown was unable to collect stumpage on unauthorized harvests; instead, penalties included an amount equivalent to the stumpage as a means to compensate the Crown. The 2003 legislative change has the effect of reducing the total monetary amount of penalties.

Process Overview

The chart below illustrates the process from inspections to compliance and enforcement actions.

The three steps of this process (A, B and C) are described in detail on the next page.

* Seizures are not necessarily findings of contravention.

** Stop Work Orders are not formal findings of contravention.

PROCESS OVERVIEW CONTINUED

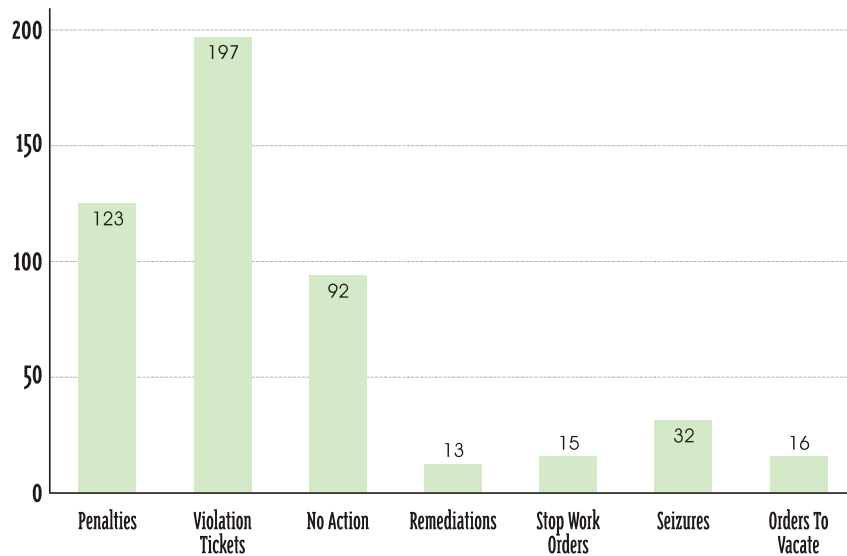

- A) Inspections are conducted to determine compliance with forestry legislation. Where an inspection identifies a problem, it may be dealt with in the field through a compliance action, or may require further investigation. Inspections may identify one or more potential contraventions of forestry legislation.
- B) Investigations generally result from potential contraventions identified through inspections. In some cases, investigations may result from other causes, such as public tips about alleged non-compliance.
- C) Contraventions can be addressed either through compliance actions or enforcement actions. One contravention may result in more than one action being taken; alternately, several contraventions may be addressed through a single action.

Overall Program Statistics

The following four charts give an overview of Compliance & Enforcement statistics for the period of April 1, 2004 to March 31, 2005.

Total Enforcement Actions by Type

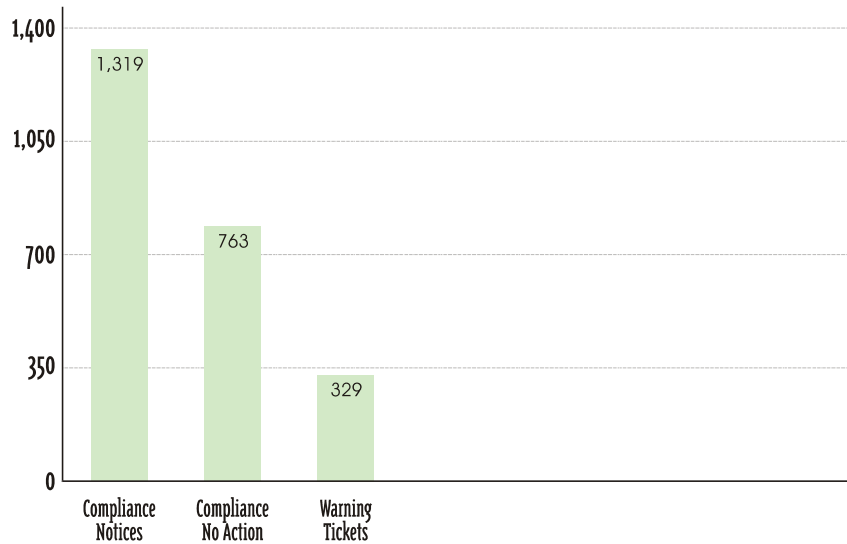

This graph shows the frequency of enforcement actions taken to address contraventions. Not included in this graph are Licence Cancellations, Licence Suspensions and BCTS Disqualifications, as there were none this reporting period. Stop Work Orders are not considered formal findings of contravention. Seizures are not necessarily considered findings of contravention.

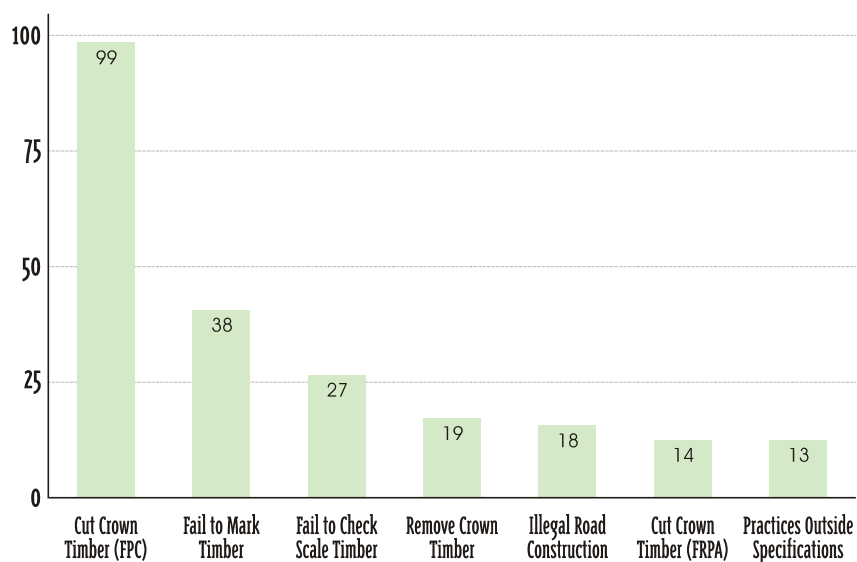

OVERALL PROGRAM STATISTICS CONTINUED

Total Compliance Actions by Type

This graph shows the number of compliance actions taken to address alleged contraventions.

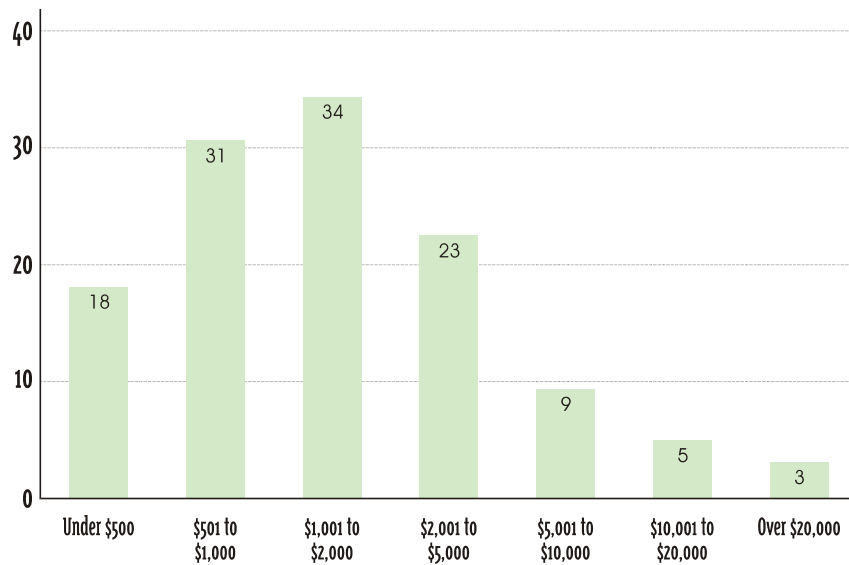

Sections of Legislation Most Often Contravened

This graph shows the sections of legislation most often contravened.

OVERALL PROGRAM STATISTICS CONTINUED

Summary of Monetary Penalties

This graph shows the number and range of monetary penalties that have been levied under forestry legislation.

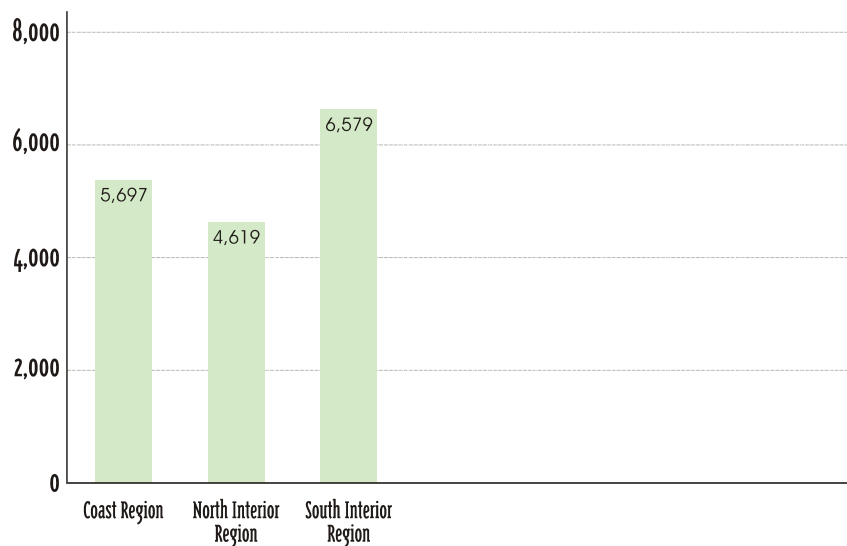

Statistics by Region

The province is divided into three administrative units called forest regions, each of which is further sub-divided into forest districts. See page 40 for a list of regions and districts and a map of regional and district boundaries.

The following graphs show the number of Inspections, Compliance Actions and Enforcement Actions broken down by administrative region.

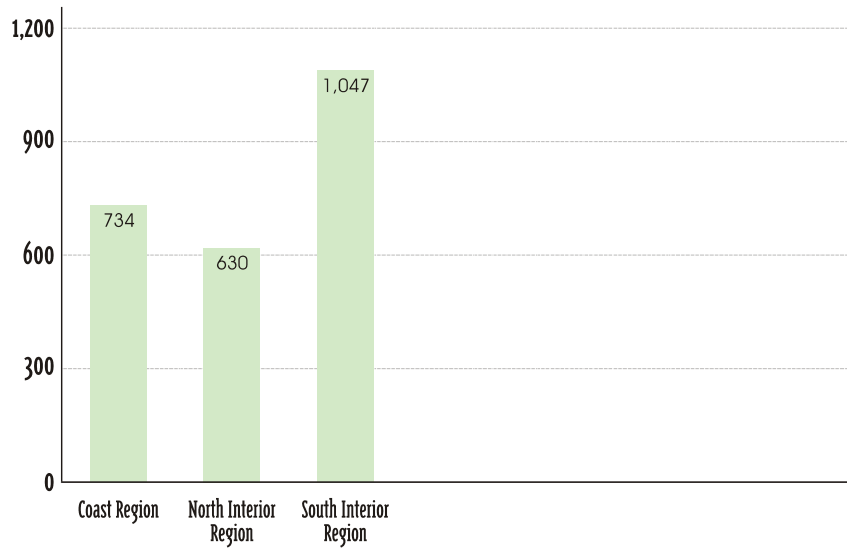

Total Inspections by Region

This graph shows the number of inspections conducted by Compliance & Enforcement staff.

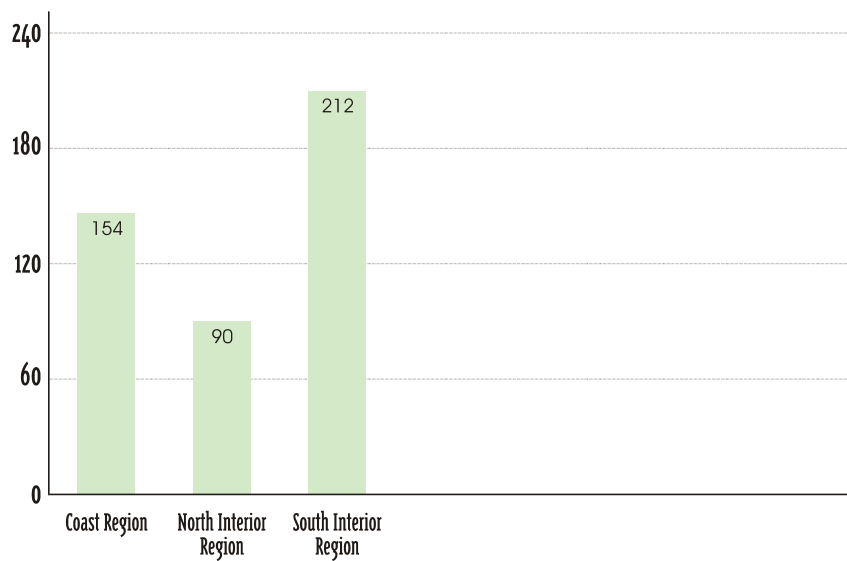

STATISTICS BY REGION CONTINUED

Total Compliance Actions by Region

This graph shows the number of compliance actions taken to address alleged contraventions.

Total Enforcement Actions by Region

The graph shows the number of enforcement actions taken against contraventions.

Statistics by Tenure Type

These statistics show, by tenure type, the number of inspections completed by Compliance & Enforcement staff, and the number of enforcement actions and compliance actions taken.

Statistics for Major Licensees

Number of Inspections	10,255
Number of Compliance Actions	790
Number of Enforcement Actions	186
Volume Billed	71,153,092 m ³

The Major Licensee tenure type includes the following licence types:

- Tree Farm Licences
- Timber Licences
- Forest Licences
- Pulpwood Agreements
- Major Timber Sale Licences

Statistics for Timber Sales Licensees

Number of Inspections	2,231
Number of Compliance Actions	364
Number of Enforcement Actions	33
Volume Billed	10,315,349 m ³

The Timber Sales Licensee tenure type includes the following licence types:

- Competitive Timber Sale Licences
- Value-added Timber Sale Licences
- Roads associated with Timber Sales Licences

Statistics for Community Forest Licensees

Number of Inspections	31
Number of Compliance Actions	1
Number of Enforcement Actions	0
Volume Billed	224,971 m ³

STATISTICS BY TENURE TYPE CONTINUED

Statistics for Woodlot Licensees

Number of Inspections	981
Number of Compliance Actions	179
Number of Enforcement Actions	8
Volume Billed	3,972,537 m ³

The Woodlot Licensee tenure type includes the following licence types:

- Woodlot Licences
- Roads associated with Woodlot Licences

Statistics for Range Licensees

Number of Inspections	367
Number of Compliance Actions	103
Number of Enforcement Actions.....	25

The Range Licensee tenure type includes the following licence types:

- Range Licences
- Grazing Permit/Licences
- Haycutting Permit/Licences

Statistics for All Other Licensees and Non-Tenure Holders

Number of Inspections	3,080
Number of Compliance Actions	1,004
Number of Enforcement Actions	211
Volume Billed	4,235,074 m ³

This tenure type includes:

- Licences to Cut
- Special Use Permits
- Free Use Permits
- Christmas Tree Permits
- Private Lands
- Road Use Permit
- Log Salvage/Small Scale Salvage
- Non-Tenure Holders

Statistics for Major Licensees & Large-Volume Tenure Holders

This chapter lists enforcement actions that occurred within the reporting period, regardless of when the actual contravention occurred.

Shown in alphabetical order are forest tenure holders with major licences (or that recently held major licences) that billed volumes of more than 20,000 cubic metres annually. Also listed are other tenure holders who harvested more than 20,000 cubic metres within the reporting period. The header lists the licensee, the volume (in cubic metres) of Crown timber billed by the licensee and the number of compliance inspections conducted by Compliance & Enforcement staff.

Under each header is a listing of enforcement actions as determined by a senior official or as determined by an official through the issuance of a violation ticket.

Note that a portion of a licensee's volume may have been harvested by a separate company or contractor; the following listings do not include enforcement actions which might have been carried out against the activities of a separate company.

Enforcement Actions by Tenure Type

Enforcement Actions against Community Forest Licensees

The Community Forest Licence tenure is a new tenure type created in 2003. During the reporting period of April 1, 2004 to March 31, 2005 there were no recorded enforcement actions against licensees of this type.

Enforcement Actions against Woodlot Licensees

The following tables establish the number of enforcement actions against woodlot licence holders from April 1, 2004 to March 31, 2005. The first table shows how many licensees had one (or more) enforcement actions. The second table shows what sections of legislation were contravened, and how many times.

Number of Licensees with 2 Enforcement Actions	1
Number of Licensees with 1 Enforcement Actions	6

Contravention	Article Description	Amount
FPC 80 (1)	Fail to abate fire hazard as required	2
FPC 96 (1)	Cut/Damage/Destroy Crown Timber	2
FA 94 (1)	Manufacture, sell or transport timber before being scaled	1
FRPA 52 (1)	Cut, Damage or Destroy Crown Timber Without Authorization	1
FRPA 53 (2)	Fail to ascertain boundaries of private land before cutting timber	1
WLFM 89	Fail to submit annual report before May 1	1

ENFORCEMENT ACTIONS BY TENURE TYPE CONTINUED
