December 21, 2012

NOTICE TO ALL LOG EXPORTING AND INTERESTED PARTIES

This notice is in effect immediately for a temporary period up to and including the December 20, 2013, bi-weekly listing.

Please be advised that due to a continued lack of demand for balsam high-grade logs in the domestic market, the Coast Forest Region will, until December 13, 2013, continue accepting applications for exemption of high-grade balsam timber (grades D and F) from the requirement to use or manufacture the timber in the province. Please note that high-grade balsam timber (grades D and F) must be sorted into a pure Balsam Sort.

Yours truly,

for Paul Knowles

Director
