

FLNR - Climate Change Risk Baseline Project

Are we prepared?

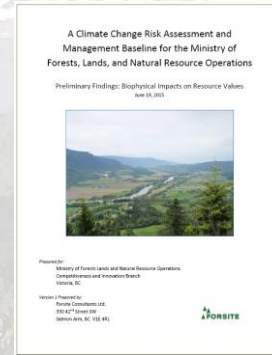

First phase in 2014/15,

Second Phase underway

FLNR Values and associated **Biophysical Indicators**

Threats (Risks) and Opportunities

Robustness / Organizational Readiness

1

FLNR - Climate Change Risk Baseline Project

Robustness / Organizational Readiness

Of both Risk Assessment and Response

Judgment

Consider principles of

- "Readiness"
- "Adaptive Capacity"

Organizational capacity, not biophysical capacity

2

FLNR - Climate Change Risk Baseline Project

Indicator Quantification

Biophysical Indicator of a FLNR Value – we will provide a list

Biophysical measure of impact

(Positive or negative with plausible climate change)

Socio-economic evaluation

Quantitative (e.g., a billion dollars) vs

Qualitative (a lot)

3

FLNR - Climate Change Risk Baseline Project

Exercise – a chance to contribute

Consider FLNR Value and Indicator – comment, input

Consider quantification – both biophysical and socio-economic

Other info include key individuals, groups to connect with
