

Downloading seedlots into Plantwizard from SPAR

October 24, 2007

Step 1

First go to SPAR, click reports, then float over extracts, then click Seedlot Extract

Step 2

Then choose the appropriate seedzones for your areas, then click "submit"

Microsoft Internet Explorer provided by Shared Services BC

Address: <http://apps20.for.gov.bc.ca/spar/>

Step 3

Once you receive and save the csv file from SPAR in your email go to plant wizard, open sowing plan and click on "seed"

Click import, choose import from SPAR CSV file, choose file, click "next" on the pop-up screen, the type in MOF 27 (RSI) or MOF 28 (RNI) as owner

Step 5

Leave SPZ's to import blank

Plant Wizard - H:\Work\FFT\Reforestation\Plantwizard\2007_2008\FFT_Branch.mdb

Step 7

Select appropriate seed for planting projects or use "auto allocate" tool

[illegible]

Step 8

Once Seed has been allocated return to SPAR and enter sowing requests based on these allocations.
