

INSTALLATION SUMMARY REPORT

EP: 1121 A, B & C **DATE** - Mar 2019

CREW: R. White Woods – JP/JH

EQUIPMENT USED: Allegro Field PC, Vertex

1. **Access** (roads, trails, paths between plots): Good 2wd access, gate code required at MKRF.
2. **Weather conditions:** Cold and windy to start, lots of snow on ground, gradually warming and melting, mostly dry with a few warm days later on.
3. **Slope & aspect:** 0-20%, WNW.
4. **Vegetation** (major species, abundance): Salmonberry, thick in most plots. Many hardwood naturals
5. **TP markers:** N/A
6. **Corners** (markers, labels): Angle iron in Area B, good. End posts in Area C, good.
7. **Center posts** (presence, condition, identification tag): PVC In Area A, good.
8. **Maintenance work done:** Refreshed DBH lines, replaced some tags.
9. **Ingrowth** (presence, species): Lots of ingress – Ep, Dr, Mb
10. **Tags** (nails, straps): Tags on zaps mostly good, some replaced (tags very hard to read)
11. **Height visibility:** Good.
12. **Plot condition:** Mostly good, some significant snowpress on hardwoods in areas B & C – extreme lean with tops bent over, no heights taken.
13. **Ambiguities:**
15. **Other information:** Height to Live and Height to Live Crown difficult to assess on hardwood species.
