
Installation Information

EP922 inst. 13 - Joe's Lake

Title: The effect of spacing on the growth and yield of Interior Douglas-fir

District: Central Cariboo Forest District (southern interior)

Access: 1.25 hrs. S. of Williams Lake (4WD); heavy slash in the plots.

Design: 12 plots total; 10 plots thinned to varying densities, 2 unthinned control plots

Major Spp.: Fdi

Year Established: 1993

Age at Establishment: 36

BEC: IDFdk3/01

Elevation (m): 1200

Latitude Degrees: 51

Experimental Project Design

	# of plots	total area
Total:	12	1.04

Measurements

Meas No.	Assessment Date	Spp.	DBH			Height
