INGA August, 31 2001

12	A_2 herbicide with instrumentation - overview.
13	A_2 herbicide tree 23 and sap flow.
14	Solar panels from sap flow and overview.
15	Control A_3 - data logger.
16	Solar A_3.
17	Sap flow tree 21 A_3
18	RH and water table.
19	Open area above control A_3
20	Open area above control A_3
21	Madge C1 cottonwood in plot by tree 1311.
22	Willow cottonwood below plot.
23	Shooting down into cala below plot.
24	
25	Shooting into plot C1 from below.
26	AF fire - brushing in from sides but trees fine.
27	Same. Good trees are about 5.7m tall and growing 60cm/year. They are about same height as willow and growing faster.
28	Clover at start of windrow but too dark now for clover under windrow.
29	D9 breaking plow, tree poking through willow.
30	Madge E5. Note cottonwood, birch, alder.
31	Marvin.
32-33	Lorne in D4 herbicide.
34	A8 madge. Lots of alder but trees o.k.
35	No comments recorded
