FSP Tracking System Newsletter

Feb 9, 2011

Newsletters are posted at http://www.for.gov.bc.ca/his/fsp/communiques.htm. Please share with industry and government colleagues who may have an interest in the FSPTS.

1. Introduction

If you have suggestions for future issues or comment on this one, please let us know. As well, if you want off the mailing list or have additions to the mailing list, email us at the address shown at the bottom of the newsletter.

This issue is short one and is mainly about reminders.... Don't forget about the **FSPTS support contractor** and there is also a reminder about **FSP extensions** and how we are processing them.

2. FSPTS Support Contractor

A reminder.... **Our support contractor is working only until March 31**. There is still a significant amount of funding available and there may not be funding next year. To access this service, contact the FSPTS contact person in the district office or Paul Picard (contact information at bottom of newsletter). The services are available to licensee (via your local districts), BCTS, and district staff and can involve help with spatial data upload, stocking standards, and other FSPTS data or problems. We urge you to get your requests in ASAP!

3. FSP Extensions

Another reminder.... We have run into a couple of recent FSP extensions where the amendments and extensions were melded into one "amendment". It is fine to process them together to streamline administration, but they involve two distinct decisions and must be stored separately in the FSPTS.

The extensions module in the FSPTS will be online at the end of March and in the meantime, **please use the manual process outlined in FSPTS Newsletter #1 (Item 3) available at**:
