Welcome to the RESULTS System

2006-01-30

 RESULTS(Reporting Silviculture Updates and Landstatus Tracking System) is a web-based application that provides clients and government staff direct on-line access to Provincial spatially enabled silviculture information. RESULTS will track and report silviculture accomplishments, administer approved stocking standards and evaluate free-growing progress on obligations.

March 2010

RESULTS – Agenda

Process

- Critical Resources
- 5 Steps to complete amendment in RESULTS
- Demonstration
 - Corrections
 - Minor Amendment
 - Major Amendments
 - Approved Variation
 - Site Plan Amendment

Learning Objectives

- Understand the type of changes that can be made based on whether there is a site plan or a silviculture prescription in place
- Understand on how to complete corrections, approved variations and amendments (online and ESF set up)

RESULTS – Process

SU Modification – two method

Online Application (attribute only*)

Silviculture Prescription

Site Plan

Correction	Minor Amendment	Amendment
Approved Variation		Site Plan Amendment

ESF (attribute and spatial)

Type	Schema		Action Code

RESULTS –ESF Submission (must adhere to rules)

- Rules are based on when the record was created
- Did it have existing spatial (after RESULTS Opening Spatial Conversion creation date 2005-04-01)
- For desired Action, must ensure that rules are followed.

Example:

- Correction, Major Amendments, Site Plan Amendment – all SUs must be submitted with the required intended corrections/amendment, any existing SUs not submitted will be deleted.
- Minor & Approved Variation – can only submit the SU you intend to update
- See matrix for further details

RESULTS – SU Modifications

Examples

RESULTS – Corrections

Business

- Intended to correct opening SUs entered during paper-based data entry (records pre-mandatory ESF prior to June 1, 2005)
- Corrections are to reflect legal approved documents that exists.
- Older records do not have online SP Maps (unless converted through RESULTS Opening Spatial Conversion process) and therefore making changes not require spatial; but you can always include (but then must be via ESF)

RESULTS – Corrections

Online function

- Save as you go – SU is separated into sections:

- SU identification with BEC & Offsets
- Density information
- Preferred species & Ht
- Acceptable species & Ht
- Rationale

Any changes to any of these section must be saved for each section.

Saving is accepting the data as entered.

- Toggle to any of the SU for changes as required.
- System does not highlight changed items– upon Save, data will be modified. “Back” out of the S311. Repeat steps for other SUs, if required.
- All changes are audited via SU History and History

I wish to change information in a RESULTS opening record.
These updates will conform:

- for silviculture prescriptions and site plans previously approved under the Forest Practices Code of British Columbia Act, to the requirements of the Forest Practices Code of British Columbia Act section 42.1 and Operational and Site Planning Regulation sections 7.1 and 7.3; and/or the Forest and Range Practices Act sections 189, 191, 192, and/or 197; or,
- for site plans developed under the Forest and Range Practices Act, to the requirements of the Forest and Range Practices Act sections 5, 8, 16 and 20, and Forest Planning and Practices Regulation sections 22.1, 29, and 30.

Where discrepancies are identified between RESULTS data and an approved paper document, the approved paper document will be deemed to be the official document.

I attest that the changes I am about to make were prepared by a qualified professional who is fully conversant with the legislative requirements for making amendments, and wish to proceed.

I wish to change information in a RESULTS opening record. These updates will conform:

- for silviculture prescriptions and site plans previously approved under the Forest Practices Code of British Columbia Act, to the requirements of the Forest Practices Code of British Columbia Act section 42.1 and Operational and Site Planning Regulation sections 7.1 and 7.3; and/or the Forest and Range Practices Act sections 189, 191, 192, and/or 197; or,
- for site plans developed under the Forest and Range Practices Act, to the requirements of the Forest and Range Practices Act sections 5, 8, 16 and 20, and Forest Planning and Practices Regulation sections 22.1, 29, and 30.

Where discrepancies are identified between RESULTS data and an approved paper document, the approved paper document will be deemed to be the official document.

I attest that the changes I am about to make were prepared by a qualified professional who is fully conversant with the legislative requirements for making amendments, and wish to proceed.
