Welcome to the RESULTS System

2006-01-30

RESULTS(Reporting Silviculture Updates and Landstatus Tracking System) is a web-based application that provides clients and government staff direct on-line access to Provincial spatially enabled silviculture information. RESULTS will track and report silviculture accomplishments, administer approved stocking standards and evaluate free-growing progress on obligations.

Addendum – Updating Planned Activities

New Planned Activities may be an new planned activities online or as insert via ESF

If completing a pre-existing planned activity – need to updating existing activity to avoid creation of “orphaned” activities.

Do not delete old planned activities if not completed as it demonstrates planning work performed under program, shortfalls in budgetary requirements & program accountability.

If completing an activity that was planned in RESULTS, can go to Details of planned activity to update to provide completion reporting. Minimum data:

- Base/tech/method
- Completed date
- Treated amount
- Inter-agency no (FFT program req't)

Note that FE – must be by ESF due to FE spatial requirement
