Stocking Standards IDs in RESULTS

MoFR Information Management Branch March 2009

Module 4 – Stocking Standards IDs in RESULTS

**Stocking
Standards 1**

RESULTS Training
 Stocking Standards
 IDs in RESULTS

Agenda

- Presentation
- Demonstration

- Learning Objectives
 - Understand what an SSID is
 - Understand when to use an SSID
 - Understand the mechanisms to create stocking standards in RESULTS
 - Understand how to apply SSIDs

**Stocking
Standards 2**

What is an SSID?

- SSID:
 - Stocking Standard Regime ID
 - Standards Regime ID
 - Stocking Standard ID
- A unique number that serves to identify
 - A situation (e.g. Biogeoclimatic zone)
 - A stocking standard (e.g. TSS, MSSpa, MSSp, MITD, SPP, etc)
 - Client
- E.g. 16100, BCTS Kamloops
 - ESSF dc1 01
 - 1200, 700, 600, 2.0m, Pli(1.6), Se(0.8m), Bl(0.8)

**Stocking
Standards 3**

When do you use an SSID?

- For Major Licensees:
 - For Site Plans approved under Transition FDPs
 - For Site Plans approved under FSPs
 - NOT for SILVICULTURE PRESCRIPTIONS
- For Woodlot Licensees
 - For Pre-harvest Maps/Site Plans approved under WLP
 - NOT for SITE PLANS APPROVED UNDER FDPs
- For Forest For Tomorrow Recipient Agreement Holders
 - For any new opening

**Stocking
Standards 4**

How do you create new SSIDs?

- Under FSPs
 - All SSIDs approved as part of a Forest Stewardship Plan must be entered in the FSP Tracking System
- Under Transition FDPs
 - Entered in RESULTS
- Under Woodlot Licence Plans
 - Entered in RESULTS
 - Note: Default standards from regulations are already in RESULTS
- Under Woodlot FDPs
 - Entered in RESULTS
- Under FFT
 - Entered in RESULTS

**Stocking
Standards 5**

RESULTS Training

IDs in RESULTS

How do you create new SSIDs?

- Mechanisms for Loading Stocking Standards IDs in RESULTS
 - Option 1: Copying and modifying existing standards in RESULTS
 - Option 2: Creating new standards in RESULTS
- Thousands of example regimes held by MoFR and can be accessed using RESULTS or the Corporate reporting system
 - These can be copied and modified as required to create new standards for approval
 - If no similar standard exists, may have to create a new stocking standard

**Stocking
Standards 6**

Applying SSIDs

- Applying Stocking Standards:
 - Once approved (in RESULTS or FSPTS)
 - For New Openings
 - Inserted as part of New Opening Definition Submission
 - Existing Openings
 - Managed with Site Plans
 - Use Site Plan Amendment Button or
 - ESF Amendment Submission
 - Managed with Silviculture Prescription (must get MFR approval)
 - Use Amendment Button
 - ESF Amendment Submission

Forest Stewardship Plan Submission Procedures

- June 27, 2007 Memorandum - Key points for the Procedures for Using FSP-Approved Standards in RESULTS
- Procedures for Using FSP-Approved Standards in RESULTS - These procedures are an addendum to the Silviculture Information Submission Guide (SISG). These guidelines describe processes to follow according to a desired action between the FSP tracking system and the RESULTS application such as how to:
 - Create and amend FSP standards;
 - Assign and change opening standards; or,
 - Apply FSP requirements to openings approved prior to FSP.
- FSP Stocking Standards Submissions prior to FSP Tracking System - Procedures that were in place prior to the implementation of the FSP Tracking System.
- Reference Guide for Forest Development Plan Stocking Standards - Ministry reference guide to FSP stocking standard based on the Establishment to Final Growing guidebook. Maybe used as reference for the development of FSP standards.
- Chief Forester's Letter on Stocking Standards - Procedural letter highlighting the removal for Silviculture Prescriptions (SP) approval by statutory decision maker under Bill 75. The letter also describes procedures related to amendments for areas that had approved SP and areas without an existing approved SP (PDF format).

Welcome to the RESULTS System

2009-01-27

RESULTS Reporting Silviculture Updates and Land Status Tracking System is a web-based application that provides clients and government staff direct on-line access to Province's centrally enabled silviculture information. RESULTS will track and report silviculture accomplishments, administer approved stocking standards and evaluate tree-growing progress on obligations.
