Description:

General header information to identify the type of forest land use managed by the Ministry of Forests (eg., timber tenures, grazing tenures, recreation files, forest service roads, etc.). This is the main access point for examining land use information. Recommend that this entity be renamed to FOREST TENURE or FOREST FILE in the future (TF - this needs more analysis to determine what is indentified in this entity - licence, permit, etc and if all rights identified belong here).

Attributes:

	Name	*Domain*	*Opt*	*Format*	*Length*
*	FOREST FILE ID		N	VARCHAR2	10
	File identification assigned to Provincial Forest Use files. Assigned file number. Usually the Licence, Tenure or Private Mark number.
