

BC Crown Contaminated Sites Program Site Summary

Port Alice

Location: 50° 22' 57" N, 127° 26' 57" W

Status: Long-term Monitoring & Maintenance

CCSP is managing two historic waste disposal areas: a landfill at the location of a former spill and a fenced drum disposal area, near Port Alice, BC. The two landfills are located adjacent to Victoria Lake Service Road in wooded areas. They are related to historic activities associated with the former Neucel Specialty Cellulose Mill. Following remedial activities in 2010, monitoring has been ongoing.

If you have questions or would like more information, please contact the Crown Contaminated Sites Program by emailing contaminated.sites@gov.bc.ca or visit our website <https://www2.gov.bc.ca/gov/content/environment/air-land-water/site-remediation/contaminated-sites/crown-contaminated-sites-program>.
