Accessing the Cariboo Fire Centre FTP Site for External Clients

Objective

This document provides a step-by-step process for industry, contractors, and other external clients to access the regularly-updated information posted to the Cariboo Fire Centre's (CaFC) File Transfer Protocol (FTP) site.

Purpose of the FTP Site

The FTP site is used for the sharing of information for access by industry and other external clients. This information is posted as it becomes available by CaFC staff. Information will include documents pertaining to situational awareness (e.g. fire behaviour advisories, weather forecasts), as well as other relevant information (e.g. safety information, guidance material, forms).

Accessing the FTP Site in a Web Browser

1. Click on or go to the following link: <https://www.for.gov.bc.ca/ftp/>
2. Scroll down the Directory List and click on [HPR](#)
3. Click on [external](#)
4. Click on [!publish](#)
5. Click on [CaFC](#)
6. Click either [Situational Awareness](#), [Guidance Documents](#), [Forms](#), or [CaFC Trackers](#)
7. Click on any file to open it

These directions should work in all web browsers. In order to speed up future access to the site, bookmark the following link: <https://www.for.gov.bc.ca/ftp/HPR/external/!publish/CaFC/>.

Assistance

If users are unable to get access to the FTP site, they should contact BCWS.CAFCLOGISTICS@gov.bc.ca.
