

FIRE BEHAVIOUR ADVISORY - CARIBOO FIRE CENTRE

Date issued: Thursday August 7, 2021

>>>A Fire Behaviour Advisory is in effect today:<<<

- The advisory is for C3 and M4(30) and slash fuel types for the area from Alexis Creek south through the Fraser Canyon, north to McLeese Lake, and most of the 100 Mile zone excluding the Mahood Lake area.
- In the Riske Creek and Alexis Creek area, there is potential for intermittent crown fire from 12:00-20:00 when winds exceed 10 km/hr.
- For the remainder of the advisory area, the same potential exists around peak burning from 15:00-19:00.
- For slash fuel types there is potential for fire intensity to exceed 4,000 kw/m throughout the day, with rates of spread up to 8 m/min.

Be aware of local topographic features and their effects on fire behavior. Practice LACES.

>>>USE YOUR RED BOOK TO MAKE ADJUSTMENTS FOR YOUR PARTICULAR ON SITE CONDITIONS!<<<
