

FIRE BEHAVIOUR ADVISORY - CARIBOO FIRE CENTRE

Date issued: Thursday, July 22, 2021

>>>An Extreme Fire Behaviour Warning is in effect today:<<<

- The advisory is for C3 and slash fuel types for an area from Alexis Creek down to Nemiah and for the area south of Lone Butte in the 100 Mile Zone.
- From 13:00-20:00 there is potential for ROS of 5 m/min and intermittent crown fire when winds exceed 10 km/hr. ROS increased to 10 m/min and Crown fires with winds of 15 km/hr
- For slash fuel types there is potential for fire intensity to exceed 10,000 kw/m from 1300 - 2300, with rates of spread up to 10 m/min.
- A reduction in temperatures and slightly higher RH has reduced ROS for the short term. Increased smoke will also aid in reducing fire behavior.

Be aware of local topographic features and their effects on fire behavior. Practice LACES.

>>>USE YOUR RED BOOK TO MAKE ADJUSTMENTS FOR YOUR PARTICULAR ON SITE CONDITIONS!<<<
