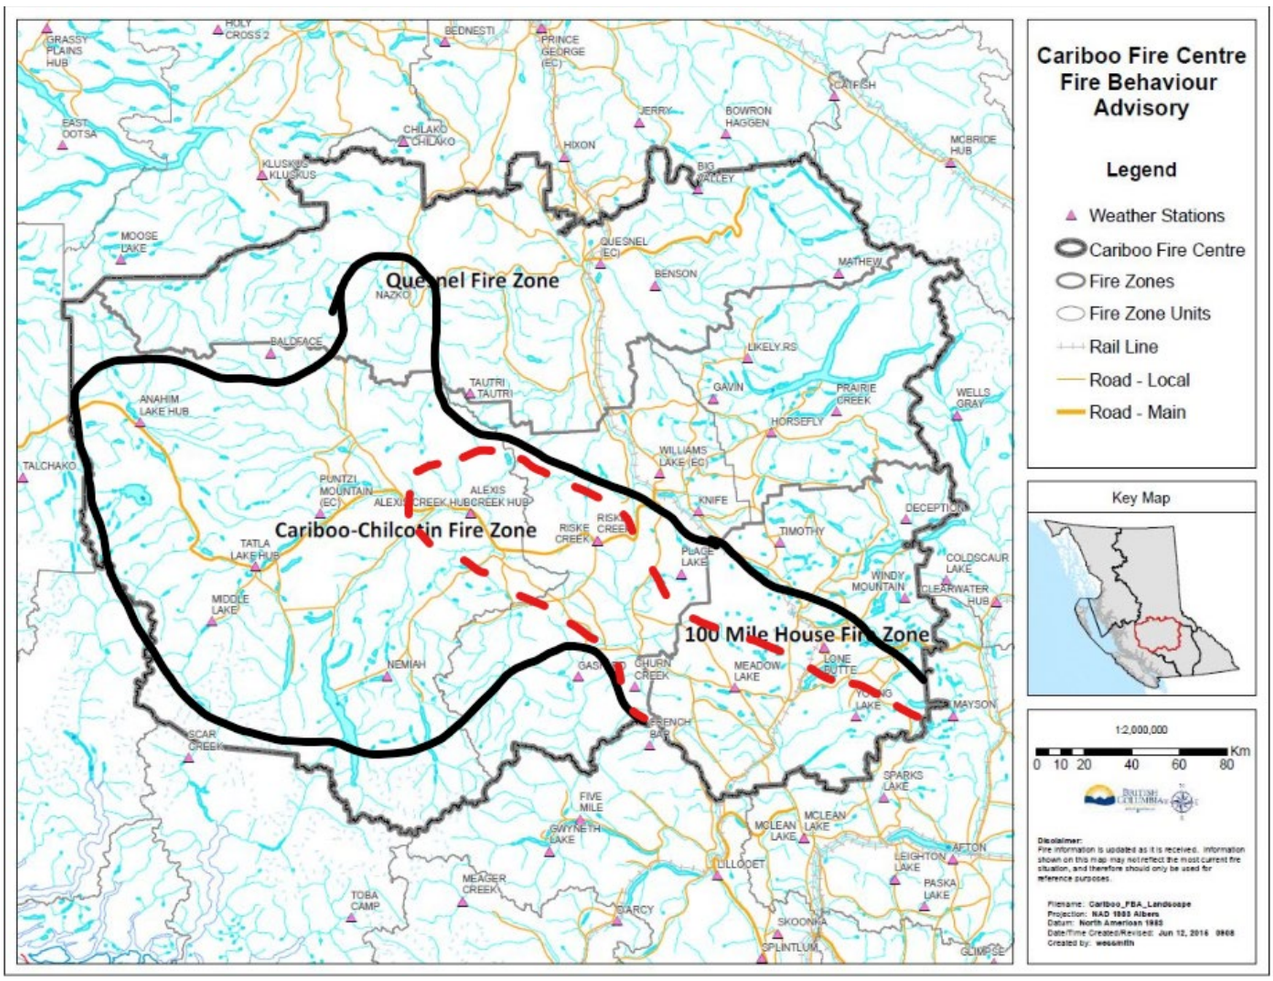
FIRE BEHAVIOUR ADVISORY - CARIBOO FIRE CENTRE

Date issued: Monday, June 21, 2021

>>>**A Fire Behaviour Advisory** is in effect today:<<<

- **The advisory is for areas South of Nazko, South of Tautri, and South of Baldface into the Entire Chilcotin, West of the Fraser River, excluding Gaspard. Following South West Including Place Lake to Lone Butte and the southern half of the 100 Mile Zone in C3 fuel types from 13:00-19:00.**
- **For C3 fuel types from 13:00 to 19:00 there is potential for intermittent crowning with winds of 10 km/hr, and Intensity Class 5.**
- **For C3 Fuel Types from 1600-1800 for Alexis Creek, Riske Creek South West to Churn Creek and the Southern Half of the 100 Mile zone expect Fire Intensity to exceed 10,000 kw/m.**
- **For that same area in C7 fuel types from 16:00-18:00 there is potential for Intensity Class 5 fires.**
- **For slash fuel types across the fire centre there is potential for fire intensity to exceed 10,000 kw/m throughout the day, with rates of spread up to 17 m/min.**
- This is a result of low RH values and high temperatures. If winds exceed 10km/h expect fire activity to increase with the potential of continuous crown fires.



Be aware of local topographic features and their effects on fire behavior. Practice LACES.
>>>USE YOUR RED BOOK TO MAKE ADJUSTMENTS FOR YOUR PARTICULAR ON SITE CONDITIONS!<<<
