

FIRE BEHAVIOUR ADVISORY - CARIBOO FIRE CENTRE

Date issued: Wednesday, June 23, 2021

>>>A Fire Behaviour Advisory is in effect today:<<<

- The advisory is in effect for areas in the Chilcotin, East of Tatla Lake, North of the Nemiah Valley to West of the Fraser River including Knife Creek. As well as in the 100 Mile Zone West and South of Highway 24, in C3 fuel types from 12:00 - 20:00.
- For C3 fuel types from 12:00 to 20:00 there is potential for intermittent crowning with Winds above 5 km/h, and Intensity Class 5 fires.
- For C3 Fuel Types in the Southern half of the 100 Mile Zone and Churn Creek from 1600-1900 expect Fire Intensity class 6 with excess of 10,000 Kw/m and potential for Intermittent Crown Fires
- For that same area in C7 fuel types from 16:00-18:00 there is potential for Intensity Class 5 fires.
- For slash fuel types across the fire centre there is potential for fire intensity to exceed 10,000 kw/m throughout the day, with rates of spread up that could exceed 20 m/min.
- This is a result of high Fine Fuel Moisture Code Values and Low RH Values. If winds exceed 10km/h expect fire activity to increase.

Be aware of local topographic features and their effects on fire behavior. Practice LACES.

>>>USE YOUR RED BOOK TO MAKE ADJUSTMENTS FOR YOUR PARTICULAR ON SITE CONDITIONS!<<<
