# N41369 - 3.4 km West of Sorcerer Mtn.- Modified Response

## Burned Area Mapping

The Burn Severity map shows a Relativized Burn Ratio Index (RBR) calculated from Landsat 8.

Burn Severity Level should be interpreted with caution as no field-based assessment of burn severity was available for data calibration. Burn Severity Level provides a relative indication of the fire burn severity.

Fire Perimeter
Highways
Roads
Provincial Protected Areas
National Parks

**Burn Severity Level**

Low Severity
Moderate Severity
High Severity
