This map may contain CONFIDENTIAL information: for INTERNAL use only

Disclaimer:
Information and locations for the current fire season, including both active and inactive fires, are supplied from various sources. The data is refreshed from operational systems regularly throughout the day but may not reflect the current fire situation, and should not be used for legal purposes.

Wildfire data from the system is updated when practicable and the occurrence of wildfires is unpredictable. Therefore, the Province does not guarantee that the data is accurate or complete and shall not be liable for any direct or indirect damages that might arise as a result of any inaccuracies or omissions in the data. In addition, the Province does not warrant that the data will be available at any particular time or that it will be free from any defect or error.
