High Streamflow Advisory ENDED: 18June2010 8:30AM

- **Elk River valley, including Fernie**

The High Streamflow Advisory is ENDED. Environment Canada ended the Rainfall Warning for the Elk River valley and East Kootenay area early this morning. Rainfall has eased or ended, and further significant rainfall amounts are not expected.

A ***High Streamflow Advisory*** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A ***Flood Watch*** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A ***Flood Warning*** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
