Kingcome River - Flood Warning - ENDED

The Flood Warning on the Kingcome River is ENDED.

The Kingcome River above Atlatzi River (WSC 08GF008) has been receding steadily since the second peak on Monday. Rainfall ended yesterday, and as of 8AM today, the water levels have dropped to 5.1 m, and the rate of recession is levelling off.

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
