River Forecast Centre

UPDATE - Flood Watch: Howe Sound - ENDED 29Sep2010 8:00AM

The BC River Forecast Centre is ending the Flood Watch in Howe Sound.

Rainfall ended in Howe Sound yesterday, and river levels continued to recede overnight. All river levels are now below the 2-year return period flow and below a level of concern.

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
