UPDATE: Flood Watch: Liard River
Issued: 13June2012 10:20AM

The BC River Forecast Centre is **downgrading** the warning to a **Flood Watch** for:

- **Liard River at Upper Crossing (near Lower Post)**

The BC River Forecast Centre is **ending** the **Flood Warning** for:

- **Liard River at Lower Crossing**

The Liard River has slowly been receding from record river levels last weekend. The Liard River at Upper Crossing (10AA001) is currently at 6.92m, and dropping approximately 20-30 cm a day.

The Liard River at Lower Crossing (10BE001) has now dropped to below levels of concern.

At this time no significant rises are expected on the Liard River. The River Forecast Centre will continue to monitor conditions and will provide updates as conditions warrant.

A ***High Streamflow Advisory*** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A ***Flood Watch*** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A ***Flood Warning*** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
