BC River Forecast Centre (<http://bcrfc.env.gov.bc.ca/>)

ENDED: Flood Watch: Liard River

Issued: 15June2012 9:30AM

The BC River Forecast Centre is **ending** the **Flood Watch** for:

- **Liard River at Upper Crossing (near Lower Post)**

The Liard River has slowly been receding from record river levels last weekend. The Liard River at Upper Crossing (10AA001) is currently at 6.18m, and dropping approximately 40-50 cm a day.

At this time no significant rises are expected on the Liard River. The River Forecast Centre will continue to monitor conditions and will provide updates as conditions warrant.

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
