ENDED - Flood Watch –Upper Columbia
Issued: 10June2012 11:45AM

The BC River Forecast Centre is **ending** a **Flood Watch** for:

- **Upper Columbia (including the Columbia River, Kicking Horse River and surrounding areas)**
- **Eagle River**

River levels in the Upper Columbia (including the Kicking Horse River) and Eagle River have been receding over the past day, and rivers are now below levels of concern.

A **Flood Watch** are still in effect for the **Shuswap River**. See separate warnings on the River Forecast Centre website (http://bcrfc.env.gov.bc.ca/warnings/index.htm) for details.

The River Forecast Centre will continue to monitor conditions and will provide updates as conditions warrant.

A ***High Streamflow Advisory*** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A ***Flood Watch*** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A ***Flood Warning*** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
